

CERTIFIED, PRE-OWNED LIFT TRUCKS

To maintain a steady growth curve, warehouse management is expected to do more with less. That means moving more pallets per hour, despite limitations on space, personnel, and budget. That's why Raymond provides you with the best lift trucks for your business and budget.

With Raymond RENEWED, you'll select from Raymond's complete fleet of efficient and productive vehicles that have been fully inspected, cleaned, and refurbished. And to ensure the quality of each truck, Raymond-certified technicians perform the RENEWED Certification Process.

Raymond RENEWED offers three different grade levels of truck certification:

- **Premium:** best for the budget-conscious warehouse manager who needs performance, reliability, and longevity.
- **Performance:** ideal for typical, single-shift applications.
- **Value:** designed for tight budgets and lower volume applications.

Raymond RENEWED, the line of refurbished vehicles that deliver satisfaction.

Raymond RENEWED trucks deliver lower costs and better productivity.

For complete details contact your local Raymond Sales and Service Center and see the terms and conditions of the Raymond RENEWED warranty document.
